General
1. Meeting notes will go out following the report.
Scenic
1. We will need 2 phones attached to the work table and two phones attached to the counter (with the cash register) for "Call Back In The Morning".
Lights
1. None, thank you.
Costumes
1. AUDREY, ORIN, MUSHNIK and SEYMOUR will be adding their bulb heads and dead face makeup on p. 93 after we close the curtain. 2. MUSHNIK and ORIN will need a large range of motion in the "Finale" when they're eating people.
Puppets
1. The fronds are so cool, thank you! 2. Woolley would like the fronds to be able to reach out of the shop to grab ensemble members in "Finale". 3. Can we add either a strap or a grip to the inside of the frond hands? 4. Can we add spikes to one side of the leaves that stick straight out? That way, one side looks like a leaf and the other is menacing. 5. Would it be possible to hang the plant from the ceiling when it's not being used? We could use a pulley system to lower a hook that it could hang on and and take the pulley out when the PUPPETEER is holding it. That way, we could also raise it higher when it grows in "Call Back In The Morning". 6. The fronds are splitting apart because there isn't enough room for the actors hands. We will be able to fix it in rehearsal but we wanted to give you a heads up.
Hair and Makeup
1. When MUSHNIKS hand is bitten off, we are going to be using the mouth at the base of the plant.
